

Good Things Happen When We Do Not Wear Masks!!

1. My wife has idiopathic systemic inflammation (started right after she got her military vaccines prior to deployment to the first Gulf War and I think (not proven) she was injected with *Mycoplasma fermentans incognitus* (<https://patents.google.com/patent/US5242820A/en>)), and is on oxygen 24/7. We do NOT wear masks. I ELECT NOT to wear a mask. My wife CANNOT wear a mask. But, we are healthy and travel around here, Las Cruces (76 miles away) and El Paso, Tx (92 miles) for her integrative MD (self pay) and VA appointments. But we eat low carbs organic foods (as much as possible), take no meds, but do take lots of vitamins, like mega doses. EX: 8-10 grams vit C, 4-6k Vit D, 2k units vit E every day and have not been sick. Nov through Jan last yr we traveled to Tx and Florida to visit grandkids (one or more sick) and we did not get sick). Eating healthy and take lots of vit/minerals, which our son and daughter and families do not do, keeps us healthy.

2. I go to Sportsman's Warehouse in Las Cruces as I wait for my wife's weekly ALA infusion (1 hr) as I cannot wait in their facility as they are ORDERED by the queen of NM on limited capacity. I was the only person in SW w/o a mask. Another customer came up removed his mask actually just the one ear elastic so his mask hung on the other ear, and started visiting with me, like "where did all the ammo go?". I never met this man before, but we conversed for probably 20 minutes when he decided to put his mask back on. I then asked "why are you putting your mask on?" and he replied "They don't allow you to not wear a mask in here". I then said "since when do "they" have control over your body?"

As I was saying this, an elderly man (I'm 65 but don't look elderly) happened to be pushing an empty cart passed us, I noticed his tight fitting mask was flexing in and out as he breathed and he said "You're right! I can't breathe with this damn thing", as he yanked it off his face. I then said, "It is lowering your oxygen and lowering your immunity. If it makes it hard to breathe, keep the damn thing off".

We happened to be near the end of the aisle and as I was saying the above statement, another man pushing a cart walked by at this aisle intersection, and he said, "if you are taking your mask off, so am I! I hate this thing" as he tore it off his face.

So, within about 90 seconds, 3 men took there masks off!!! Yahoo!! And I did not see them put them back on!!

3. We parted paths and went separate ways. I picked up my wife and we went to Sam's Club. (We live in a small town and only have a Walmart and 3 regular grocery stores). We were greeted by Sam's Club person who said "You have to wear a mask!". I gave my canned answer (lots of practice), "No thank you. I'm healthy and want to stay healthy, so I don't need one" and kept on walking.

Saw the masked Las Cruces Policeman standing inside (they have to have one to prevent fights over toilet paper and such). Las Cruces has passed an ordinance that ALL people must wear a mask in both public and private areas, or pay a \$100 fine first offense and \$500 2nd. So I walk up to the officer and tell him we appreciate their service and they have such a difficult job especially now. People want to hurt/kill them, and they have bosses who order them to do things like force people to wear masks. He told me they are not "mask police" and will not enforce it!!

Just thought I'd pass this positive info along to you. Stay healthy, Stay safe. And have a blessed day! And thank you for your videos!!!!

Very sincerely,
Chuck & Lauren Andreas
