## **We're taking our country and our lives back and here's how we are doing it: Thursday Groups!!**

The first "Thursday Group" started in Columbus Ohio in July 2020, and now thousands of groups meet weekly throughout the U.S.

Thursday groups serve many purposes:

- Support for our friends and neighbors who need face-to-face interaction with unmasked humans who share a common vision for our country: **freedom from medical tyranny!**
- **Small Business Rescue:** members work together to help local businesses by organizing events, private shopping trips, commitments to visit or purchase products and services regularly, and other activities organized by the group.
- **Fundraising events** to support lawsuits against government agencies and officials. These events also provide a social life for members and friends who have spent too much time in isolation during the COVID-19 debacle.

## **Lawsuits!!**

**Our lawsuits are different!** Thousands of lawsuits have been filed and most have failed. The reason is that while the claims made in court were accurate – that constitutional rights were being violated – the government's response was "We know, but it is an emergency, and we therefore have the right to do these things." Judges almost always ruled in favor of the government in these cases.

Our first landmark case was filed in Ohio in August 2020 and was the first to claim that there is and was no emergency; that the restrictions placed on citizens were and still are unwarranted; and that officials are committing fraud. This means that government officials must now prove that there is an emergency and that their actions are justified - and we do not think they can.

**We are assisting in the development and organization of massive numbers of Thursday Groups that can support these lawsuits in every state; and helping to recruit and work with lawyers who will file not only lawsuits challenging the emergency, but other lawsuits we plan to file too.**

**We win when we file!** In every state in which we have filed our landmark case, life changes for the better almost immediately. For example, a second lockdown was avoided in Ohio as a result of our lawsuit. Our lawsuits attack the root of the problem – the false declaration of emergency – and this makes officials VERY nervous!

**More Lawsuits!!** Once we prove the fraud, we can sue officials personally and we plan to go after their assets. Many governors are wealthy, and their wealth can be used to help the people whose lives they destroyed. We also plan to sue school systems, big box stores, the airlines, employers, and other entities that violated the Americans With Disabilities Act and committed other egregious acts against citizens.

**We only need one judge...**to order discovery and allow us access to government documents such as testing procedures and death certificates; and allow us to depose state and federal officials involved in this hoax. These documents and depositions can then be used in all state actions. The more lawsuits we file, the better our chances!

### **Additional Plans:**

**Address all medical mandates** by drafting model legislation for state legislatures that requires transparency and Informed Consent for all medical matters, and protects the individual's right to choose.

Sort our growing data base by individual state legislative district to **apply pressure to elected officials to vote for bills that free citizens from medical tyranny and support individual choice.** This will work when we can show legislators that we have enough members in their districts to vote them out if they do not comply, which is why the development of Thursday groups is so important – Thursday group members are members of MAFA!

**Rebuild our country after the devastation caused by the government response to COVID.** One important project is to build a corps of retired teachers who can provide free assistance to economically disadvantaged children who have fallen behind due to both failing schools and school closures. We must rescue our children and restore their opportunity to participate in the American dream.

**Design and launch a superior medical system.** With a base of tens of millions of members, we can start our own healthcare system with features like insurance plans that cover services that promote health; networks of practitioners trained to collaborate with patients in making informed decisions; and treatment protocols that address the cause of disease.

**Like our plans?  
Then take action! Help us to help you!**

**Join Make Americans Free Again (MAFA) at [www.makeamericansfreeagain.com](http://www.makeamericansfreeagain.com)**

**Participate in one of our conference calls – held every Thursday at noon – and learn how to start a Thursday group and support your state and your country!  
Email [pampopper@msn.com](mailto:pampopper@msn.com) to make a reservation**

**If you are able, contribute to our legal fund at [www.makeamericansfreeagain.com](http://www.makeamericansfreeagain.com)**

**Together We Can Reclaim Our Rights and Save Our Country!**
